## TO THE VOTERS OF THE TOWN OF NORTHUMBERLAND

We, the undersigned, have been duly appointed by the Asst. Moderator of the Town of Northumberland, as the result of a vote taken in town meeting last year to investigate the possibilities of preserving the building known as "Old Town Meeting House" situated on the farm owned by A. A. Potter, have made a careful survey of this project and believe we should accept this building and proceed to make this one of the historical spots of New Hampshire.

The Old Town Meeting House, whose erection started in 1797 and completed in 1799, is the oldest structure in town and with the possible exception of a very few houses, is the oldest in northern New Hampshire. It served for all public purposes including all elections, school classes and prayer meetings. It has been in the Potter family since 1886 after its use had been discontinued by the town.

Mr. Potter proposes to return this building to this town as a gift in memory of his father, the beloved citizen Judson A. Potter, with the following provisions:

The building is to be relocated, and repaired, beside highway U.S. 3. The new location to be adjacent to and including the tract of land where the stone plaque commemorating Fort Wentworth stands. The town does not presently own this land; however, in the event of the acceptance of this project by the voters, the town will receive a deed to the aforesaid tracts of land.

We believe this building, due to its historical background, will serve not only the tourist traveling Route 3 who will take advantage of this site but it will be of value to our students not only in our own local schools but those in surrounding towns.

**To the Citizens of Northumberland:**

This year's operating budget is smaller than last year's. Included in 1960's operating budget are several fixed charges. They are (1) the purchase of a new police car, (2) the payment of debt, (3) the interest due on the debt. After 1960, the town will owe only $3,000.00 in debt. However, if the Selectmen are authorized at Town Meeting to borrow on additional notes of the town, this figure naturally will be increased.

Numerous articles calling for capital expenditures are listed in the Warrant. One of these articles requests the sum of $5,000.00 for the building of a skating shelter. The present shelter which is used by the youths of the town when they go skating is outdated. A new shelter is a necessity. Serious consideration should be given to this article.

Although this year's operating budget is less than last year's, the total budget for 1960, which would include capital expenditures, will be greater than the total budget for 1959 if all the articles calling for capital outlays are approved. This year's operating budget is $120,600.55. In 1959 it was $129,078.21. The total budget for 1959 was $130,578.21, which included a capital outlay of $1,500.00 for the building of a dead end road over Goulet Street. Until Town Meeting is completed, the exact amount of the total budget for 1960 cannot be determined because there are several articles which request unstipulated sums of money.

A cost account system which will keep a more detailed record of the costs incurred by the Public Works and Public Utilities Departments has been installed by the town officials. The Public Works Department is concerned with all highway expenditures. The Public Utilities Department takes in water and sewer maintenance.

Respectfully yours,

J. DONALD REIMENSCHNEIDER
Town Manager

## HEALTH OFFICER'S REPORT—1959

The following communicable diseases were reported to the State Department of Health from Groveton and Northumberland in 1959: Erysipelas, 3; Influenza, 45; Strep throats, 136; Chicken pox, 4; German Measles, 8; Measles, 2; Virus pneumonia, 2; Scarlet fever, 1; Broncho-pneumonia, 2; Impetigo, 7; Trenchmouth, 8. This list is far from complete as many cases of childhood diseases are not reported to the physicians or Public Health Nurse. Parents with children who have any contagious disease are urged to notify their physician in order to keep a more accurate record. The only disease occurring in unusually large numbers was streptococcal infections of the throat. This seems to have been a year-round complaint in 1959 with no seasonal incidence. Antibiotics, such as penicillin, are indicated in all streptococcal infections at the earliest possible opportunity since this type of disease is highly contagious.

The Water supply remains satisfactory as to purity. Twelve samples were submitted to the State Laboratory from Groveton and of these, nine were pure and three showed minimal bacterial contamination. Two samples were sent from Northumberland and both were satisfactory. Anyone questioning the advisability of chlorination of a public water supply should consider the recent outbreak of typhoid fever in Keene this past fall. Keene is one of the few large communities which does not have chlorination and it is very unlikely that this outbreak would have occurred with chlorinated water. It is interesting to note that the cause was traced back to a woodsman cutting pulp in a watershed, a situation which could easily be encountered in Groveton.

Numerous minor complaints were investigated during the year. A committee was appointed since the last Town Meeting to study the advisability of fluoridation of the water supply and this committee was instructed to bring a report to the next Town Meeting.

ROBERT I. HINKLEY, M.D.
Health Officer

## NEW HAMPSHIRE DEPARTMENT OF HEALTH

To the citizens of Northumberland:

During the year 1959, 35 visits were made to the town. These visits were as follows:

| | |
|---|---|
| Antepartum | 8 |
| Crippled Children's Service | 9 |
| Heart | 7 |
| Infants | 1 |
| Muscular Dystrophy | 1 |
| Polio Clinics | 3 |
| Preschool | 1 |
| Preschool Clinic | 1 |
| Regard Polio | 13 |
| Regard Triple | 21 |
| School | 7 |
| Sight Conservation | 1 |
| Triple Toxoid Clinics | 3 |
| Tuberculosis | 3 |
| Tuberculosis Clinic | 1 |

Two Salk Vaccine Clinics, sponsored by the N. H. State Department of Health in cooperation with the Public Health Nurse were held and 192 children were immunized, 39 first, 5 second, 141 third and 7 fourth injections.

In the Spring, the Triple Toxoid and Salk Vaccine Clinics were held:

Boosters 102, Preschool 65, School 37; Triple—24 Infants started and finished the series, 12 Preschool started and finished the series, 20 School started and finished the series, 1 infant finished the series started at doctor's office, 5 Preschool finished series started at doctor's office; Salk—under 5 years—40 started, 41 received second, 5 received third; 5-9 years—4 started, 4 received second, 2 received third; 15-19 years—6 started, 7 received second, 7 received third; Pregnant Mother—2 started, 1 received second.

Most of the individuals who received second injections at these (Salk) clinics were given their third injections at a clinic held in December.

It is hoped that during the month of January we will be able to give the fourth injections to all the school children, and in the Spring to the preschool children. Several children have attended the Orthopedic Clinics in Berlin and are now under treatment. One child was seen at the Children's Hospital in Boston. These services are all provided by the State Department of Health.

It has been a pleasure to work with the Citizens of Northumberland, and at this time I would like to thank them for their cooperation.

Respectfully submitted,

ELEANOR D. KENNEY, R.N.
Public Health Nurse, Coos County
New Hamp. State Dept. of Health
